

## **ABOUT US**

The Center for Risk Analysis and Crisis Management – CRACM, is a professional organization and association of the citizens whose goal is to build the organizational capacity in both private and public sector, local communities and civil society institutions in the analysis of the security risks, as well as strengthening the capacities and response to emergencies, in accordance with the modern international, European and national standards and legislations.

### **CENTER ACTIVITIES:**

1. Organizing conferences, seminars and other trainings and courses in professional education in this field.
2. Conducting the scientific and technical staff to work on scientific, technical and research projects in the domains of risk analysis and crisis management.
3. Collaborating with universities, professional associations and other organizations at home and abroad dealing with risk analysis and crisis management.
4. Taking part in the activities of the local and wider community in order to improve the quality of risk analysis and crisis management in the economic, cultural and other areas.
5. Developing the scientific and technical databases in the field of risk analysis and crisis management.

---

The vision of the Center is the country of Serbia with developed efficient, effective and sustainable capacities of public, private and civil sectors for risk analysis, integrated into the regional and global risk analysis and crisis management systems, and the preparation and response to emergencies.

The special role of the Center is in developing and applying contemporary standards in areas of safety and protection of the public and private sector, through active participation of the members of the Center in international and national associations and committees which deal

with the adoption and promotion of standards in the areas of risk management and security management, emergency management and business continuity management.

The Center has developed cooperation with the state institutions, especially the Ministry of Interior – Sector for Emergency Situations, the Ministry of Defense of the Republic of Serbia, the Ministry of Labor and Social Affairs – Directorate for Safety and Health at Work, the Institute for Standardization of Serbia, Chamber of Commerce and Industry of Serbia and Belgrade Chamber of Commerce, international organizations (OSCE) and other national and international partner organizations from the area of risk analysis and crisis management.

Members of the Board and Assembly of the Center are representative and prominent members of the community in the areas regarding the main activities of the Center.

Members of the Center are particularly active in the work of the Commission for Standards KS A 223 - in the field of social security, which was formed by the Decision of the Institute for Standardization of Serbia, on 28 September 2007. At the constituent meeting of the Commission, Dr. Zoran Keković was elected as President and on this occasion, the significant role of the NGO sector in the development of standards based on the principles of competence, professionalism and apolitical approach was highlighted.

The founder of the Center is Zoran Keković PHD, Full Professor and Vice-dean of Postgraduate Studies and Research at the Faculty of Security Studies, University of Belgrade.
